***Why do we need this information?***

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

***What do you need to do?***

- ♦ Describe your approach to public outreach.
- ♦ List three references who are familiar with your facility.

# Section D

*Tell us about your public outreach and reporting.*

**1** How do you identify and respond to community concerns?

We identify concerns through informal interaction with the community via community involvement. Refer to section A item 6 for a list of organization the employees are involved in. The informal concerns are brought to the Technical Managers attention. He or she identifies the best means to address.

We are also alerted to their concerns via the local community newspaper comment line or direct phone calls from a citizen. The phoned concerns are immediately communicated to the Technical & Environmental Manager. The manager ensures appropriate follow-up with the citizen and the Community Environmental Concern (091-4.24-QF-0080) form is completed and logged.

**2** How do you inform community members of important matters that affect them?

The Mill Manager personally speaks with the effected organization.
